

SKYWARN

Spotter Training

DESCRIPTION:

Being a storm spotter not only means dedication, but also training. Alternating in the spring and fall the Cleveland office of the National Weather Service trains members of public safety agencies, emergency management officials and amateur radio operators on spotting techniques. The goal of the training is not just to recognize tornadoes, but also to have some understanding of storm structure, which in turn better prepares the spotter for the extreme and unusual circumstances.

SKYWARN Training is **FREE**. You will be trained and enrolled in the program. Seating is limited and the course will fill up fast.

AUDIENCE:

Fire, EMS, Law Enforcement, Amateur Radio Operators, Local EMA Coordinators, School Staff, Industries, Health & Medical, & the General Public are invited.

DATE & TIME:

Monday, November 6th, 2023 from 6 p.m. to 8 p.m.

LOCATION:

Crawford County DPS, 632 Pine Street, Meadville, PA 16335

INSTRUCTOR:

Salix Iverson, Meteorologist, National Weather Service - Cleveland Office
